

# L'acqua Preferita

## San Benedetto Mineral Water

San Benedetto's pure, delicious water comes from the glaciers of the Dolomites, a precious source dating back to the ancient Republic of Venice, Italy. Bottled right at the spring, 300 meters below the ground.

The overall quantity of mineral salts and their overall balance make the San Benedetto Mineral Water one of the world's top selling Oligomineral Waters.

## Features and Benefits

- No Sodium—great for healthcare and consumers concerned with sodium intake
- Elegant packaging: suitable for table service, easy screw off caps, no opener required.
- Natural and Carbonated can be offered as a pair on the table
- San Benedetto Carbonated Mineral Water boasts a gentle carbonation compared to most competitors.
